PROFILE

I am a qualified and professional frontend developer with more than 6 years of experience with React and other modern frontend frameworks, proficient in building scalable and maintainable code. Strong analytical skills, team player with an eye for detail.

SKILLS

- HTML
- CSS
- JavaScript
- TypeScript
- React
- Next
- Apollo GraphQL
- Vue
- Nuxt
- Node.js

EXPERIENCE

SENIOR FRONTEND DEVELOPER

Roam Digital, Auckland, New Zealand

May 2017 - Present

6+ years experience developing web and mobile applications with HTML, CSS, JavaScript, TypeScript and frameworks such as React, React Native and Vue. Some of my work:

- **Modern Digital Banking (Kiwibank) - React | TypeScript | GraphQL**

Created and supported a design system library of UI components. Worked on creating a fully responsive and accessible web app, utilising aforementioned components library and design system to improve customers' experience when interacting with digital banking.

- **My Vodafone - React | React Native | GraphQL | TypeScript**

Worked on creating a new digital experience for Vodafone customers, that included developing a brand new responsive web application (React) as well as supporting an existing mobile app (React Native).

- **Backr - React | TypeScript | Accessibility**

With an amazing team created a web app for Commonwealth Bank of Australia, which offers a digital, task-based approach to starting up a business. It features an award-winning design combined with highly accessible UX and responsive UI.

- **Givelt - Vue | Nuxt | JavaScript**

Created a SPA using Nuxt and Vue.js for The Warehouse Group, featuring a responsive UI and SSR.
